

ADDITIONAL INFORMATION

Weight	0.4 kg
Dimensions	22 × 15 × 9 cm
Carton Qty	4
Pricing Unit	Unit/1
Size	21cm W x 7.5cm D x 13cm H
Min Order Qty	1
ARTG ID	142658
Medical Device Class	Class 2a
Tax Schedule	Taxable
Item Length	21
Item Width	7.5
Item Height	13
Item Measurement Unit	cm
Location	AU-Cameron Dr
Is Serialized Item	No
Kits - People (High Risk)	10
Kits - People (Low Risk)	25
Kits - Treatments	Eye Injury
Kits - Industry	Construction / Outdoor / Remote Location, Home / Personal, Office / Retail
Kits - Case	Weatherproof
Is Dangerous Good	No

PRODUCT DESCRIPTION

AeroKit REGULATOR Eyewash First Aid Kit is a dedicated solution for fast, hygienic response to eye incidents in workplaces, vehicles and community settings. It brings together essential irrigation and eye protection items in an organised format to support rapid assessment and first response when dust, debris or other irritants enter the eye. The compact design fits easily into wall cabinets and is ideal for mobile teams and facilities that require reliable eyewash capability on hand.

Sterile, single-use irrigation components allow quick flushing of the eye to remove loose particles and dilute irritants. Soft dressings and coverings help protect the area after rinsing so the individual can rest while arranging further care if needed. Clear, easy-to-locate components minimise delays during an emergency and help new or infrequent users act confidently under pressure.

Well suited to manufacturing, laboratories, workshops and construction environments, this kit supports compliance-driven first aid arrangements and complements general purpose first aid kits already onsite. It is also a smart addition for hospitality, education and transport where wind-blown debris or accidental splashes are possible.

- **Rapid response:** organised eyewash components help start irrigation quickly.
- **Hygienic use:** sterile, single-use items support safe, confident care.
- **Space-efficient:** compact 21 × 7.5 × 13 cm footprint suits cabinets and vehicles.
- **Protection after rinse:** soft coverings help shield the eye following irrigation.

This first aid kit features a dedicated eyewash focus, bringing together irrigation and eye protection items in a compact case for environments where eye exposure to dust, debris or splashes is a key concern.

The compact 21 × 7.5 × 13 cm format is easy to store in vehicles, wall cabinets or household cupboards, providing organised eyewash and post-rinse protection items wherever quick access to eye care is needed.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
