PRODUCT DESCRIPTION

The AeroKit Responder 4 Series Softpack Versatile First Aid Kit is designed to keep workplaces, vehicles and busy households ready for unexpected emergencies. Packed with a broad selection of dressings, bandages, wipes and essential tools, it supports rapid first response to common injuries such as cuts, grazes, sprains and minor burns. The softpack design is compact yet spacious, helping keep vital items close at hand without taking up unnecessary room in cupboards, utes, site vehicles or home storage.

This workplace standard kit suits environments where people are frequently on the move, including trades, construction, warehouses, factories and service vehicles. The flexible bag helps protect contents from dust and light moisture, while its internal layout keeps products organised so users can quickly locate what they need in a stressful moment. The combination of items supports treatment of multiple incidents in a single shift, making it well suited to small and medium teams as well as active families.

The Responder 4 Series softpack is also a practical option for mobile workers and community groups who need a reliable kit that can travel between locations. Clear labelling and structured layout assist less experienced first aiders to identify appropriate items, while the comprehensive range of components helps reduce downtime by allowing minor injuries to be managed on the spot. Its portable design and balanced mix of products make it a dependable choice for general first aid readiness at home, at work and on the road.

- **Comprehensive coverage:** wide range of dressings, bandages and accessories for everyday first aid needs.
- **Portable softpack design:** easy to carry between vehicles, worksites and home.
- **Organised interior:** compartments help users quickly find key items during emergencies.
- **Workplace-ready:** suited to trades, warehouses, offices and service vehicles.
- **Ideal for home and travel:** compact footprint fits neatly in cupboards, cars and caravans.

This softpack format focuses on portability and flexibility, providing a compact, versatile first aid solution that can be stored easily in cupboards, vehicles or work areas while still offering generous internal capacity for essential components.

Supplied as 1 complete kit unit, this option provides a ready-to-use first aid solution that can be placed directly into workplaces, vehicles or homes, simplifying purchasing and helping ensure a consistent level of coverage wherever it is kept.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
