PRODUCT DESCRIPTION

The AeroKit Responder 4 Series Plastic Neat First Aid Kit is designed to keep workplaces, small businesses and busy households ready to respond quickly to everyday injuries. Housed in a compact plastic case, it helps keep essential first aid items together in one organised place so they are easy to locate when time matters. The case size of 29 x 10 x 27 cm makes it simple to carry to an incident, place in a vehicle, mount in a workshop or keep in an accessible cupboard at home.

This first aid kit supports rapid, initial treatment of common workplace injuries such as cuts, grazes, minor burns, eye irritations and sprains. A broad mix of dressings, bandages, wipes and accessories allows users to manage different injury types in a single, convenient solution. The assortment is suitable for use in offices, warehouses, factories, hospitality venues, schools and home workshops, as well as for camping trips and caravans where a reliable kit is essential.

The internal layout is designed to help users see and reach items quickly, with compartments that help separate dressings, tapes, wipes and tools. This supports efficient response during stressful situations and makes it easier to see when items need topping up. The durable outer case protects contents from dust and light splashes in everyday environments, helping supplies stay in good condition between uses. Its neat profile fits comfortably on shelves, vehicle storage areas and under desks without taking up unnecessary space, while still being large enough to hold an extensive selection of first aid essentials.

The AeroKit Responder 4 Series Plastic Neat First Aid Kit is well suited to workplaces seeking alignment with recognised workplace first aid guidance, as well as families wanting confidence that they can deal with common injuries at home. It can act as the central kit in a small workplace or as a specialist kit kept in high-risk areas such as workshops, kitchens or maintenance rooms. For active households, it provides peace of mind for DIY projects, backyard play, cooking mishaps and weekend adventures.

- **Workplace ready:** supports rapid, initial treatment of common on-the-job injuries.
- **Compact and portable:** 29 x 10 x 27 cm case is easy to carry, store and transport.
- **Organised interior:** compartments assist with fast product identification during emergencies.
- **Comprehensive selection:** wide range of first aid essentials for cuts, burns, eye care and minor trauma.
- **Versatile use:** ideal for workplaces, vehicles, home workshops and camping or travel.

The compact plastic neat case style provides a slim 29 x 10 x 27 cm profile that is easy to carry by the handle, fit into cupboards or vehicle storage, and position in visible locations so first aid support is always close at hand.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
