PRODUCT DESCRIPTION

Stingose Gel provides targeted topical relief for minor insect stings and bites in a smooth, easy-apply gel designed for quick response across home, work, and outdoor settings. The formulation contains aluminium sulfate 200 mg/mL (20% w/v), selected to help calm pain, itch, and swelling following contact with common biting insects. The gel spreads cleanly and forms a thin layer for practical, low-mess coverage when prompt first aid is required.

Built for everyday preparedness, the presentation supports fast application without complicated steps or special accessories. A compact profile means it fits neatly into first aid kits, glove boxes, backpacks, and site bags so dependable sting and bite relief stays within reach. Clear purpose and straightforward use help users make confident choices in the moment, whether easing a sudden sting at a family picnic or supporting field teams on the job.

The focus on fast soothing action and portability makes it well suited to families, travellers, and work crews who value a prompt topical response. Around the home, on worksites, or during outdoor activities, Stingose Gel offers practical relief that helps people return to tasks with fewer interruptions. With a proven active ingredient and an easy-to-spread texture, it's a reliable addition to personal and workplace first aid arrangements. Its user-friendly format complements core first aid items and supports calm, efficient care when stings and bites happen unexpectedly.

- **Fast soothing relief:** helps calm pain, itch, and swelling from stings and bites.
- **Proven active ingredient:** aluminium sulfate 200 mg/mL (20% w/v).
- **Easy to apply:** smooth gel spreads quickly for efficient coverage.
- **Portable:** compact format suited to first aid kits and travel.

Spray 25 mL format offers quick, low-mess coverage and packs neatly into first aid kits and travel bags, making on-the-go sting and bite relief easy to access.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
