PRODUCT DESCRIPTION

The VOYAGER 2 Series First Aid Kit Refill is curated for rapid replenishment of compact workplace, vehicle and home kits. Pre-selected essentials help restore coverage for everyday incidents—minor cuts, grazes, sprains and basic wound care—so kits remain ready between scheduled service checks and audits.

Designed as a single, convenient supply solution, this refill minimises time spent sourcing individual items and helps standardise what's inside each kit. Components are chosen to support common first aid tasks such as cleansing, dressing, bandaging and securing, along with basic tools for safe application. The balanced mix supports confident responses from trained first aiders and everyday users alike.

Clear product labelling supports quick identification during replenishment and later when an incident occurs. The result is a consistent kit layout that's easy to teach, easy to check, and easy to use under pressure.

Built for regular turnover, the refill aligns to the compact VOYAGER 2 format—ideal for light-to-moderate risk environments such as small offices, retail areas, mobile technicians, and family vehicles. Keeping a sealed spare on hand reduces downtime between incidents and scheduled inspections, helping maintain readiness wherever the kit is stored.

From procurement to day-to-day use, the VOYAGER 2 Series First Aid Kit Refill delivers practical value: simplified ordering, predictable inventory, and reliable supplies when minutes matter. It's a smart choice for all seeking a consistent, professional standard across multiple sites and teams.

- **Ready-to-use selection:** curated essentials for cleansing, dressing, bandaging and securing
- **Fast restocking:** replace used or expired items in one pass to maintain kit readiness
- **Consistent layout:** clear labelling supports quick identification during incidents
- **Compact format:** sized for VOYAGER 2 kits in workplaces, vehicles and homes
- **Operational efficiency:** single pack simplifies ordering and inventory control
- **Training-friendly:** predictable contents help standardise demonstrations and checks
- **Versatile coverage:** suitable for minor cuts, scrapes and everyday first aid tasks

Delivered as a single refill pack tailored to the VOYAGER 2 format, providing a balanced selection for minor incidents and rapid restocking. Ideal for maintaining consistent first aid coverage across compact kits.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
