PRODUCT DESCRIPTION

The Voyager 2 Series Plastic Waterproof First Aid Kit is a compact, portable solution designed to keep essential first aid items organised, protected and ready to use. Housed in a durable plastic case with a secure handle, it is built for life on the move, whether kept in the car, at home, in a small office or taken on day trips. The hard case design helps shield the contents from knocks, dust and splashes so that dressings, bandages and other items remain clean and ready when minor injuries occur.

This kit supports rapid, initial care for everyday mishaps such as small cuts, grazes, minor burns and strains. Inside, a carefully selected mix of adhesive plasters, conforming bandages, non-adherent dressings, cleansing wipes, eye wash, burn gel and basic instruments allows simple first aid to be carried out quickly and confidently. A compact footprint of 13 x 21 x 7.5 cm makes it easy to store in a glove box, cupboard, backpack or caravan without taking up valuable space.

The Voyager 2 Series is intended for home and personal use, making it ideal for families, commuters and anyone who wants peace of mind while travelling. It is equally useful in low-risk work environments such as offices, retail spaces and light warehouses where a tidy, easy-to-carry kit is preferred. The strong latch and hinged lid keep everything contained, while the internal layout helps users quickly find what they need in a stressful moment.

The kit is listed on the Australian Register of Therapeutic Goods (ARTG No. 142658), giving confidence that it is suitable for providing initial care when incidents happen. From treating a scraped knee at the park to supporting first aid after a minor kitchen accident, this compact kit offers reassurance that essential items are close at hand when they are needed most.

- **Compact and portable:** small 13 x 21 x 7.5 cm case fits easily in vehicles, cupboards and bags.
- **Durable plastic casing:** helps protect contents from dust, moisture and everyday knocks.
- **Comprehensive everyday coverage:** supports rapid response to a wide range of minor injuries.
- **Ideal for home and personal use:** well suited to households, commuters and light workplaces.
- **ARTG listed:** aligns with Australian requirements for first aid kits used by consumers.

Supplied as 1 complete kit in a compact case measuring 13 x 21 x 7.5 cm, this option is ideal when a single, ready to use first aid solution is needed for a household, vehicle or small workspace.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
